

Digi Teachers Working Online Toolkit

Collaboration in Google Slides

WHAT: Collaboration in Google Slides

WHY: To learn to work in a group, to learn to collaborate online, to practice Google Slides, to learn about job seeking.

WHO: Suitable for students over 16 and groups of 3–12 people, can be used both in classroom and in distance teaching, suitable for students with special needs with careful guidance.

WHAT: Students learn about job seeking, they get experience of digital group working and they learn to give and receive feedback.

WHICH: Each student needs a computer – or if they want to use their mobile devices, it is also possible, because Google Slides is available as an app.

HOW: Try slides.google.com for free. You need a Google account, and you can share slides with anyone.
