

Digi Teachers Working Online Toolkit

Google Classroom

WHAT: Material making and assigning tasks in Classroom

WHY: The students learn to use a digital learning platform, the teacher can easily manage the group and the assignments.

WHO: Suitable for students with good digital skills, but Classroom's functions are very logical and the platform guides to utilise its features. Can be used both in classroom and in distance teaching.

WHAT: It is possible to create different kind of exercises to support the learning and to give different exercises to each student. Classroom has tools to notice plagiarism and to assess the tasks.

WHICH: Each student needs a computer – and some students want to use Classroom with their own mobile device.

HOW: Try classroom.google.com for free. Both you and your students need a Google account.
