

# Digi Teachers Working Online Toolkit

## Kahoot Training for Job Interview

**WHAT:** The answers verify that participants learn in the class, in this example about a job interview.

**WHY:** Teacher can see what the student has learned.

**WHO:** Suitable for all the students with a mobile device and internet. Example's students were from 15 to 35. Only 25 students can join at the same time.

**WHAT:** Students are answering questions about the topic they work on. It is an easy way to control the process and to rehearse the topic.

**WHICH:** Each student needs a computer and a mobile device. They see questions from their computers/mobile.

**HOW:** Kahoot is free for players and of limited use also for Kahoot makers. If you want to use it a lot, then you must pay.
