

# Digi Teachers Working Online Toolkit

## QR code helps in reporting

**WHAT:** QR code links to a form where a student can report about their working day

**WHY:** To report on an easy-to-use platform, reporting becomes regular when the reporting form is easy to access, regular reporting enhances study skills and even professionalism.

**WHO:** The students of preparatory training for work and independent living (16>).  
Digital skills of the students vary.

**WHAT:** It is easy to find the reporting form, because you only need the QR code and a mobile phone. To make it even easier, the assistant teachers who are with the students on the working places, have printed the QR code to their phone cases, so the QR code is always near. Reporting is important, because tT progress becomes visible, and the feeling of empowerment and professionalism grows.

**WHICH:** Mobile phone

**HOW:** Teacher makes a reporting form (for example in Office Forms) and creates a QR code (for example in [www.qr-code-generator.com](http://www.qr-code-generator.com)). The student needs their mobile phone. They direct the camera towards the phone and come to the webpage where the reporting form is.
