

Digi Teachers Working Online Toolkit

Thinglink picture as a learning platform

WHAT: A 360 picture with links that lead to new pictures and exercises

WHY: To get to know the working environment and the work tasks in advance, to rehearse the tasks.

WHO: The example has been used with students of cleaning services, suitable for SNE students, ages 16 and over.

WHAT: Thinglink picture serves as an orientation to a new task, in this case window cleaning. It is possible to learn about the tools that are needed for the task and go through the task with pictures and videos in advance. You can also rehearse after doing the task IRL. There is different kind of material for different learners: pictures, videos, small exercises.

WHICH: You can use Thinglink pictures with a computer or with a VR headset.

HOW: Check out the example in

<https://www.thinglink.com/scenariocard/1697894851971908388> Click on the icons, and when doing an exercise click on Proceed in the top-right corner. You can try making your own thinglinks for free: www.thinglink.com
