

Digi Teachers Working Online Toolkit

VR Environment

WHAT: VR environment *Matin päivä* where students can rehearse working in a shop

WHY: To get to know a real working environment in advance, to learn basics of customer service in a motivating and immersive way, to learn basic Finnish related to customer service and working in a shop.

WHO: Suitable for SNE students, ages 16 and over. *Matin päivä* must be used individually with a headset, but it is possible to share the headset view. You can also use the environment with a computer.

WHAT: Those who can't visit the real-life working environment, can visit it in virtual reality. The environment gives possibility to rehearse customer service in advance, which suits especially those students, who find it hard to be in contact with unfamiliar people. VR environment is very immersive, so it is easy to concentrate. Game-like activities make studying motivating.

WHICH: You can use any VR material with VR headset, but if you don't have the headset, you can use VR material with your computer. If you want to create VR material, you need a 360 camera.

HOW: You can test the VR environment *Matin päivä* (in Finnish) [here](#) If you want to try it with VR headset, the password is 916-4541. This environment is made with WondaVR, but there are a lot of different VR environments.
