

Digi Teachers Working Online Toolkit

SAFETY WALK AND CANVA

WHAT: Easy-to-use graphic design tool

WHY: To craft engaging and comprehensible teaching materials

WHO: With Canva, you can design materials for any target group. For safety walk materials, the target group was preparatory training students.

WHAT: Generate a variety of visual content, including presentations, infographics, videos and game boards, to effectively illustrate learning subjects and enhance your teaching.

Canva templates offer easy customization for student needs, allowing for personalization with your own photos and recordings. Enrich your content with Canva's graphics and symbols.

Digital resources are versatile for both classroom and distance learning, with engaging materials being particularly important for remote education. Printed materials facilitate practical learning of safety skills via walk-through methods, which can also be adapted digitally.

WHICH: The teacher requires a Canva account and internet connection to access the cloud service. The students can utilize either printed or digital materials downloaded from their learning platform as usual.
